SECURITY COURSES

WHO WE ARE?

Welcome to Safety And Security Solutions. We specialise in providing the highest standard of security courses and medical & fire safety courses available.

We achieve this by providing education and training to all areas, encouraging a proactive approach by promoting a safe and secure environment through greater safety & security awareness and preparedness.

Considerable time is spent with clients, assessing and evaluating the entire need spectrum of the business, organization, or family to develop an individualized and unique safety and security plan.

This results in a close, communicative relationship with our clients, and allows Safety And Security Solutions to provide the best results that we can in any given situation.

WHAT WE DO?

A customer focused, friendly and approachable team who are able to fully reassure clients and customers in answering any and all of their concerns and queries.

Our experience includes working for various organizations and firms in a broad spectrum of safety & security services throughout the EMEA specializing in Medical, Risk mitigation, Close Protection, and Management Systems Implementation as well as the training of NGO & HNW personnel in HEAT (Hostile Environment Operations) & PSAT (Personal Security Awareness Training) and also Health & Safety Training for Corporate, Military, Police and Prison Staff, Situational Awareness & Personal Protection for HVT Personnel.

Over 30 years' experience of working in government, corporate and domestic environments with numerous multinationals giving the team at SASS the ability to bring a solution to any and all customer concerns.

ELEARNING COURSES DISTANCE LEARNING

New to eLearning? Well, you've come to the right place! Digital-learning has gone beyond the days of PCs in a corner. Today, distance-learning content is delivered via laptops, tablets and mobile devices.

Here at Safety and Security Solutions, we offer distance learners the opportunity to enroll in both individual eLearning courses and course bundles.

COVID-19 BACK TO WORK

Standard Operating Procedure for returning to work. Current Return to Work Safely Protocols published by the Department of Business, Enterprise, and Innovation, require Employers to provide a COVID-19 induction training for all workers at all levels.

CORONAVIRUS FIRST AID RESPONDER HALF DAY COURSE

The recent government mandated “Return to Work Safely Protocol” document for Employers and Employees dated 9th May 2020, states that First Aid Responders in the workplace should be provided with updated training on infection prevention and control principles including a performance of hand hygiene and appropriate use of personal protective equipment when delivering first aid.

FIRST AID ESSENTIALS 1 DAY COURSE

Upon successful completion of this course participants will gain the skills and knowledge necessary to:

- Deal with life-threatening or potentially life-threatening conditions until the arrival of emergency medical services.
- Provide an adequate response for conditions not thought to be life-threatening but are necessary to prevent further harm before the emergency medical services arrive.
- Provide first-aid in a wide range of environments including the workplace, home and recreational settings.
- Display the requisite personal skills including composure, competence and self-confidence while understanding their limitations.

FIRST AID RESPONDER (FAR) - 3 DAY COURSE

The aim of this First Aid Responder(FAR) course is to provide you with the knowledge, skills and attitude to become a competent First Aid Responder.

The PHECC FAR course is the only first aid certificate recognised by the Health and Safety Authority (HSA).

The course covers all the essential aspects of Training. This course is perfect for anyone who is looking to gain emergency first aid skills leading to qualification as a First Aid Responder.

CARDIAC FIRST RESPONDER (CFR)

The Cardiac First Response (CFR) - Community Level Providers Course is designed to provide the ability to recognize several life-threatening emergencies, provide Cardiopulmonary Resuscitation - CPR, use an Automated External Defibrillator - AED, and relieve choking in a safe, timely and effective manner. A Cardiac First Responder plays a vital role in keeping a person alive until they can receive expert clinical care.

EMERGENCY FIRST AID

Our 1-day basic first aid course has been designed to cover all the core principles of First Aid. It is delivered through a mix of multi-media information and practical hands-on instruction. Participants will come away with a basic medical understanding of the human anatomy, along with practical life-saving skills. The Basic 1 day First Aid qualification attained will allow candidates to operate within the workplace as a designated First Aider.

PEDIATRIC FIRST AID

The Paediatric First Aid course is designed to provide staff working in childcare with training in First Aid for children.

This is a one day course providing childcare staff with training in First Aid for children.

FIRST AID FOR SCHOOLS

This 2 to 3 hour First Aid Course for schools is for Teachers and Classroom Assistants including other staff and personnel employed by the school to prepare them to deal with an emergency situation, before the arrival of medical aid.

Course Content - Scene Safety and Scene Management - Calling the Emergency Services - Recovery position - Medical Emergencies - Choking - Diabetes - Epilepsy - Asthma - Allergic reactions / anaphylactic shock - CPR and AED use - Head injuries / concussion / compression

Fractures, sprains and strains - Wounds and Bleeding - Burns and Scalds

FIRE SAFETY TRAINING - HALF DAY COURSE

Fire Safety training is a legal requirement for all staff under the Safety, Health and Welfare at Work Act, 2005. This Basic Fire Safety Awareness Training course takes approximately 3 hours and is ideal for new staff, existing personnel who have never received formal training, or staff requiring refresher training. Here at SASS all our courses are offered in-house and venues around the country. This course will consist of a variety of lectures, practical demonstrations and student on hand training and learning.

FIRE MARSHAL/FIRE WARDEN TRAINING - 1 DAY COURSE

Here at SASS solutions all our courses are offered in-house and venues around the country. This course will consist of a variety of lectures, practical demonstrations and student on-hand training and learning. This course is specifically designed to meet the requirements of both the 1981 Fire Services Act and Regulation 9 of the Safety Health and Welfare at Work Act 2005.

MANUAL HANDLING - HALF DAY COURSE

Here at Security And Safety Solutions, all our courses are offered in-house. This course will consist of a variety of lectures, practical demonstrations and student onhand training and learning. The course duration is 3 hours.

ABRASIVE WHEELS TRAINING

This course will instruct employees in the theory and practice of safe use of abrasive wheels to comply with the "abrasive wheels regulations 1982" (si 30 / 1982).

The focus of this course is driven towards user competence and safe workplace practices. along with a greater understanding of personal safety, attendees will also be familiarised with current legislation. It is the legal obligation of all employers to provide enough Health and Safety training to any employee that is expected to operate an abrasive wheel.

HEALTH AND SAFETY REPRESENTATIVE COURSE (SAFETY REPS) - 2 DAY COURSE

The Safety Reps is a 2 day Safety & Security Solutions accredited course which will help the participant to promote and maintain safety and health in the workplace.

The Safety Representative Course outlines the roles and functions of a Health and Safety Representative.

SECURITY TRAINING

QQI LEVEL 4 CERTIFICATE IN DOOR SECURITY PROCEDURES 4N1114

QQI LEVEL 4 CERTIFICATE IN GUARDING SKILLS (STATIC AND RETAIL) 4N1118

A blended learning approach is used to deliver the courses consisting of 100 hours of home study, first day is registration day and last day is exam day at Dublin training centre. This must be completed before examination can take place.

Successful graduates will receive: TRF Letter for PSA APPLICATION., QQI Level 4 Certificate in Guarding Skills 4N1118., **Duration:** (100 hours) first day is registration day and last day is exam day at Dublin training centre., **Certificate:** PSA Licence renewed every 3 years., **Students:** 8 - 10

PERSONAL SECURITY AWARENESS COURSE

Topics Covered in this Course include (but not limited to):

MODULE 1: AN INTRODUCTION TO PERSONAL SAFETY AND SECURITY WITH WORKING ABROAD

MODULE 2: CYBER SECURITY

MODULE 3: GEO-POLITICAL AND SECURITY THREAT ANALYSIS

PREVENTION AND MANAGEMENT OF AGGRESSION AND VIOLENCE (PMAV)

The aim of this Prevention and Management of Aggression and Violence Course is to equip the learner with the ability to provides staff members with the knowledge, confidence and skill in recognising the early indicators, assessing and de-escalating aggressive behaviours encountered within the context of their role

This course is based on the HSE's Policy on the Prevention and Management of Work-Related Aggression & Violence 2018, their Strategy for Managing Work-related Aggression and Violence within the Irish Health Service 2008 and the Mental Health Commissions' Code of Practice on the use of Physical Restraint.

PHYSICAL INTERVENTION TRAINING (PI TRAINING)

This programme provides learners with skills and knowledge to restrict and control the movement and freedom of an individual in order to protect themselves, the individual and others from injury or assault. The primary goal is to reduce the need for physical intervention - not just to ensure such interventions are safer.

SASS's primary goal is to help its clients to reduce the use of force because physical intervention carries risk for everyone involved and can result in tragedy.

SAFETY AND SECURITY FOUNDER AND CEO

STEPHEN DOYLE

CHIEF EXECUTIVE OFFICER

Stephen brings over thirty years of training experience to the organisation from Corporate to Government and everything in between. Stephen has served with distinction in the Defence Forces as an instructor for 23 years from 1989 to 2012 in both operational and training environments, here and overseas. He has conducted eight operational tours serving with UNIFIL in the Middle East and NATO forces in Kosovo.

Since 2013 Experience includes working for various organizations and firms in Europe and the Middle East in a broad spectrum of safety & security services specializing in Close Protection, risk mitigation and management systems implementation as well as the training of NGO & HNW personnel in HEAT (Hostile Environment Operations) Health & Safety, Emergency First Aid, Situational Awareness & Personal Protection through his company safety and security solutions.

He is a graduate of the Military College where he served on staff with the Cadet School and UN training School.

He is also a graduate of Andrews University, Templemore College and the Security Institute Ireland in international terrorism and advanced security studies.

He is a practising EMT with the order of Malta and private medical ambulance services.

He is a Member of the Security Institute Ireland (MSECI) and American Society for Industrial Security (ASIS)
